PROFESSIONAL TITLE

Manual QA Engineer | Web E-commerce Testing

TECHNICAL SKILLS

- Manual Testing
- Test Case Design
- Regression Testing
- Smoke Testing
- Bug Reporting
- Web Testing
- E-commerce Testing
- Jira
- Postman
- Cross-browser Testing

PROFESSIONAL EXPERIENCE

Manual QA Engineer – Web E-commerce Projects

Duration: 1 year

- Designed and executed manual test cases for core e-commerce workflows including product browsing, cart, checkout, and user accounts.
- Performed functional, regression, smoke, and exploratory testing across multiple web releases.
- Validated pricing logic, discounts, taxes, and payment scenarios.
- Reported, tracked, and verified bugs using Jira, collaborating closely with developers to ensure high-quality releases.
- Tested APIs and workflows using Postman.
- Ensured cross-browser compatibility and consistent user experience.
- Participated in requirement analysis and identified edge cases early in the development cycle.
- Executed 100+ test cases and identified critical issues affecting checkout and payment flows.

EDUCATION

Master's in English Language and Linguistics – In Progress

Bachelor's Degree in English Language and Linguistics – Jordan University of Science and Technology

CAREER DEVELOPMENT

2022 – Present: Master's studies in Linguistics (research & analytical skills) and continuous hands-on practice in QA (Web testing, manual testing, Jira, Postman).
